

Financial Tear Sheet

Corporate Profile

Amgen, the world's largest biotechnology company, uses science and innovation in an effort to dramatically improve people's lives. Amgen aspires to be the world's best human therapeutics company.

Our researchers harness the powerful tools of cellular and molecular biology and medicinal chemistry to discover, develop and commercialize naturally occurring proteins, antibodies and small molecules, with the goal of extending the reach of science to unleash the body's own powerful therapeutic responses. Amgen's research and product development programs aim to help patients in four critical areas: nephrology, hematology and oncology, bone and inflammation, neurology and endocrinology.
