

## Amgen To Webcast Investor Call At the 73rd Annual Meeting of the American Academy of Dermatology

March 23, 2015

THOUSAND OAKS, Calif., March 23, 2015 /PRNewswire/ -- Amgen (NASDAQ:AMGN) will host a webcast call for the investment community at the 73<sup>rd</sup> Annual Meeting of the American Academy of Dermatology (AAD) on Monday, March 23, 2015, at 1 p.m. PT. The webcast will begin one hour later than previously announced on March 17, 2015, to accommodate scheduling changes. Elliott M. Levy, M.D., executive vice president of Research and Development at Amgen, along with members of Amgen's clinical development team and clinical investigators, will participate in this call to discuss Amgen's clinical data presented at AAD, including the brodalumab Phase 3 results.

Live audio of the investor call will be simultaneously broadcast over the Internet and will be available to members of the news media, investors and the general public.

The webcast, as with other selected presentations regarding developments in Amgen's business given by management at certain investor and medical conferences, can be found on Amgen's website, [www.amgen.com](http://www.amgen.com), under Investors. Information regarding presentation times, webcast availability and webcast links are noted on Amgen's Investor Relations Events Calendar. The webcast will be archived and available for replay for at least 90 days after the event.

### About Amgen

Amgen is committed to unlocking the potential of biology for patients suffering from serious illnesses by discovering, developing, manufacturing and delivering innovative human therapeutics. This approach begins by using tools like advanced human genetics to unravel the complexities of disease and understand the fundamentals of human biology.

Amgen focuses on areas of high unmet medical need and leverages its biologics manufacturing expertise to strive for solutions that improve health outcomes and dramatically improve people's lives. A biotechnology pioneer since 1980, Amgen has grown to be one of the world's leading independent biotechnology companies, has reached millions of patients around the world and is developing a pipeline of medicines with breakaway potential.
