Report of Independent Registered Public Accounting Firm

Amgen Manufacturing, Limited, as Named Fiduciary, and the Plan Participants
of The Retirement and Savings Plan for Amgen Manufacturing, Limited

We have audited the accompanying statements of net assets available for benefits of The Retirement and Savings Plan for Amgen Manufacturing, Limited (the Plan) as of December 31, 2010 and 2009, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2010 and 2009, and the changes in its net assets available for benefits for the years then ended, in conformity with U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedules of assets (held at end of year) as of December 31, 2010 and assets (acquired and disposed of within year) for the year then ended are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, are fairly stated in all material respects in relation to the financial statements taken as a whole.

The Retirement and Savings Plan for Amgen Manufacturing, Limited

Notes to Financial Statements

December 31, 2010

1. Description of the Plan

The following description of The Retirement and Savings Plan for Amgen Manufacturing, Limited (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was established effective January 1, 2002, most recently amended and restated effective January 1, 2006 and subsequently amended, with the most recent amendment adopted on December 4, 2009. The Plan is a defined contribution plan covering substantially all Puerto Rico resident employees of Amgen Manufacturing, Limited (the Company), a wholly owned subsidiary of Amgen Inc. (Amgen). The Plan, as amended, is intended to qualify under sections 1165(a) and (e) of the Puerto Rico Internal Revenue Code of 1994, as amended (the PR Code) (see Note 5, *Income Tax Status*) and section 407(d)(3)(A) of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Subject to certain limitations (as defined in the Plan), participants may elect to contribute up to 30% of their eligible compensation in pre-tax contributions and after-tax contributions or a combination of these types of contributions. A participant's pre-tax contributions are subject to PR Code and Plan limitations and could not exceed \$9,000 in 2010 and 2009. Participants may elect to contribute after-tax contributions beginning January 1 of the year following the year the participant was hired. Participant after-tax contributions are subject to PR Code and Plan limitations and could not exceed \$1,500 in 2010 and 2009. Unless an employee has voluntarily enrolled in the Plan or has declined to participate in the Plan within the first 30 days of employment, all newly eligible participants are automatically enrolled in the Plan and contributions equal to 5% of their eligible compensation are withheld and contributed to the Plan as pre-tax contributions; such contributions are automatically increased by 1% per year until their contributions reach 10% of their eligible compensation. Participants may elect to adjust, cease or resume their contributions at any time.

Participants who are at least age 50 by the close of the Plan year may also elect to make certain additional pre-tax contributions, referred to as catch-up contributions, that are subject to PR Code and Plan limitations and could not exceed \$1,000 in 2010 and 2009. Participants may also contribute pre-tax and after-tax amounts representing certain distributions from defined benefit or other defined contribution plans qualified in Puerto Rico, referred to as rollover contributions (as defined in the Plan).

The Retirement and Savings Plan for Amgen Manufacturing, Limited

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Contributions (continued)

Each pay period, the Company makes a non-elective contribution for all eligible participants, whether or not they have elected to make contributions to the Plan, equal to 4% of each participant's eligible compensation (Core Contribution). In addition, the Company makes a contribution equal to amounts contributed by the participant as pre-tax contributions and, if applicable, as catch-up contributions up to 5% of eligible compensation (Matching Contribution).

Participants select the investments in which their contributions, including their Core Contributions and Matching Contributions (collectively Company Contributions), are to be invested, electing among various alternatives, including Amgen Inc. common stock (Amgen stock). Participants may direct a maximum of 20% of contributions to be invested in Amgen stock. In addition, participants may transfer amounts among the investment options at any time, subject to certain limitations. Notwithstanding the foregoing, if 20% or more of the value of a participant's Plan account is invested in Amgen stock, no transfers from other investment options can be made to invest in Amgen stock.

The accounts of participants who had never made an investment election are allocated to investments under a qualified default investment alternative which is intended to be compliant with ERISA regulations. At any time, participants may elect to alter the investments in their accounts made under a qualified default investment alternative.

Vesting

Participants who are or became eligible employees on or after January 1, 2007 are 100% vested with respect to all of their individual contributions, Company Contributions, and earnings and losses (hereafter referred to as "earnings") thereon. Participants who are not and do not become eligible employees on or after January 1, 2007 are subject to certain vesting conditions (as defined in the Plan) with regard to Company contributions and related earnings thereon.

Participant Accounts

Each participant's account is credited with the participant's contributions and an allocation of (a) Company Contributions and (b) earnings. The benefit to which a participant is entitled is the benefit that can be provided from the vested portion of the participant's account.

The Retirement and Savings Plan for Amgen Manufacturing, Limited

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Plan Investments

Participants can invest in any of 14 different asset classes as well as Amgen stock or may actively manage their account under a self-directed brokerage arrangement in which a wider array of investment options are available. Each asset class has investments in one or more underlying investment vehicles, including mutual funds, collective trust funds and portfolios which are separately managed exclusively for the benefit of Plan participants and their beneficiaries (separately managed portfolios). The separately managed portfolios are primarily composed of investments in publicly traded common and preferred stocks of domestic and foreign entities.

Payments of Benefits

Upon termination of employment, including termination due to disability (as defined in the Plan), death or retirement, a participant or the participant's named beneficiary may elect to receive an amount equal to the value of his or her vested account balance in (a) a single payment in cash, (b) a single distribution in full shares of Amgen stock (with any fractional shares paid in cash), (c) a single distribution paid in a combination of cash and full shares of Amgen stock, or (d) a rollover distribution to an eligible retirement plan (as defined in the Plan). If a participant dies before receiving the value of his or her vested account balance, the participant's beneficiary may elect to receive the distribution of remaining funds from among the alternatives described above.

Subsequent to termination of employment, participants may also elect to maintain their vested account balance in the Plan, provided that their account balance is greater than \$1,000.

Certain restrictions apply to withdrawals from the Plan while a participant continues to be employed by the Company.

Notes Receivable from Participants

Subject to certain restrictions, a participant can have outstanding up to two loans at any one time from his or her Plan account up to a combined maximum amount (as defined in the Plan) equal to the lesser of (a) 50% of their vested account balance or (b) \$50,000 less certain adjustments, as applicable (as defined in the Plan). A participant's loan is secured by his or her Plan account balance. Loans made prior to January 1, 2006 bear interest at fixed rates based on the average borrowing rates of certain major banks. Loans made on or after January 1, 2006

The Retirement and Savings Plan for Amgen Manufacturing, Limited

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Notes Receivable from Participants (continued)

bear interest at fixed rates based on the prime rate plus one percentage point as published in The Wall Street Journal determined as of the last day of the calendar quarter preceding origination or such other rate as may be required by law. Loans are generally payable in installments over periods ranging from one to five years, unless the loan is used to acquire a principal residence for which the term of the loan may be up to 20 years. Principal and interest payments are allocated to the participant's account.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. Upon termination, participants would receive distributions of their vested account balances.

Trustee

Banco Popular de Puerto Rico is the Plan's trustee.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Fair Value Measurement

The investments of the Plan are reported at fair value. Fair value is generally defined as the price that would be received to sell an asset or paid to transfer a liability (the exit price) in an orderly transaction between market participants at the measurement date (see Note 3, *Fair Value Measurements*).

The Retirement and Savings Plan for Amgen Manufacturing, Limited

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Investment Income and Losses

Dividend income is recognized on the ex-dividend date and interest income is recorded on an accrual basis. Unrealized gains and losses on investments are measured by the change in the difference between the fair value and cost of the securities held at the beginning of the year (or date purchased if acquired during the Plan year) and the end of the year. Realized gains and losses from security transactions are recorded based on the weighted-average cost of securities sold.

Fully Benefit-Responsive Investment Contracts

The Plan holds units of collective trust funds that have investments in fully benefit-responsive investment contracts. Such contracts held directly or indirectly by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate qualified transactions related to these investments. The Statements of Net Assets Available for Benefits present these contracts at fair value with an adjustment to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

Due from/to Brokers

Purchases and sales of investments are recorded on a trade-date basis. Due from brokers and due to brokers arise from unsettled sale and purchase transactions as of December 31, 2010 and 2009.

Change in Method of Accounting for Notes Receivable from Participants

Effective for the year ended December 31, 2010, the Plan adopted a new accounting standard that requires notes receivable from participants to be segregated from Plan investments and measured at their unpaid balance plus any accrued but unpaid interest. As required by this new standard, it has been retrospectively applied to the prior year. The adoption of this new accounting standard did not have any impact on the Plan's net assets available for benefits.

The Retirement and Savings Plan for Amgen Manufacturing, Limited

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Recent Accounting Pronouncements

Beginning January 1, 2010, the Plan adopted a new accounting standard which requires additional disclosure about the amounts of and reasons for significant transfers between levels of the fair value hierarchy. This standard also clarifies existing disclosure requirements related to the level of disaggregation of fair value measurements for each class of assets and liabilities and disclosures about inputs and valuation techniques used to measure fair value for Level 2 and Level 3 measurements. As this new accounting standard only requires enhanced disclosure, its adoption did not impact the Plan's net assets available for benefits or changes to net assets available for benefits.

In May 2011, a new accounting standard was issued that amends certain fair value measurement principles, clarifies the application of existing fair value measurement requirements and requires additional disclosures regarding fair value. This new standard is required to be applied prospectively beginning in 2012. The Company is currently evaluating the effect this new accounting standard will have on the Plan's financial statements.

3. Fair Value Measurements

The Plan uses various valuation approaches in determining the fair value of investments within a hierarchy that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that observable inputs be used when available. Observable inputs are inputs that market participants would use in pricing the investment based on market data obtained from independent sources. Unobservable inputs are inputs that reflect assumptions about the inputs that market participants would use in pricing the investment and are developed based on the best information available in the circumstances. The fair value hierarchy is broken down into three levels based on the source of inputs as follows:

Level 1 – Valuations based on unadjusted quoted prices in active markets for identical investments that the Plan has the ability to access;

The Retirement and Savings Plan for Amgen Manufacturing, Limited

Notes to Financial Statements (continued)

3. Fair Value Measurements (continued)

Level 2 – Valuations for which all significant inputs are observable, either directly or indirectly, other than level 1 inputs;

Level 3 – Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

The availability of observable inputs can vary among the various types of investments. To the extent that the valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for financial statement disclosure purposes, the level in the fair value hierarchy within which the fair value measurement is categorized is based on the lowest level input that is significant to the overall fair value measurement.

The Retirement and Savings Plan for Amgen Manufacturing, Limited

Notes to Financial Statements (continued)

3. Fair Value Measurements (continued)

The following fair value hierarchy table presents information about each major class/category of the Plan's investments measured at fair value:

The Retirement and Savings Plan for Amgen Manufacturing, Limited

Notes to Financial Statements (continued)

3. Fair Value Measurements (continued)

The fair value of common stocks (including Amgen stock), preferred stocks and mutual funds are valued using quoted market prices in active markets with no valuation adjustment. Common and preferred stocks traded in markets that are not considered active are valued using broker or dealer quotations.

Collective trust funds represent interests in pooled investment vehicles designed typically for collective investment of employee benefit trusts. The fair values of these investments are determined by reference to the net asset value per unit provided by the fund managers. The unit values are based on the fair values of the trusts' underlying assets, which are principally equity and fixed income securities and short-term investments. The investment strategies of the Plan's collective trust funds vary generally based on the investment objectives of the asset class of which they are a part. Such investment strategies include investments in fixed income securities and investments in equity securities for growth and value objectives as well as to replicate domestic and international market indexes and to invest in emerging markets. There are no material redemption restrictions on any of these investments.

4. Investments

The fair values of individual investments that represent 5% or more of the Plan's net assets as of December 31, 2010 and 2009 are as follows:

	December 31	
	2010	2009
Blackrock Equity Index Fund F – Collective trust fund	\$ 25,936,414	\$ 19,383,462
Amgen stock	24,251,842	24,454,206
Wells Fargo Stable Return Fund G – Collective trust fund	12,402,835	10,284,540

The Retirement and Savings Plan for Amgen Manufacturing, Limited

Notes to Financial Statements (continued)

4. Investments (continued)

During the years ended December 31, 2010 and 2009, net realized and unrealized gains/(losses) on the Plan's investments were as follows:

	Year Ended December 31	
	2010	2009
Amgen stock	\$ (733,540)	\$ (402,123)
Common and preferred stocks	6,231,488	6,945,129
Mutual funds	1,738,071	2,834,718
Collective trust funds	6,811,252	7,809,583
Other	15,048	1,636
	<u>\$ 14,062,319</u>	<u>\$ 17,188,943</u>

5. Income Tax Status

The Plan received a determination letter from the Puerto Rico Treasury Department (PRTD), dated June 22, 2007 and with an effective date of January 1, 2006, stating that the Plan is qualified, in form, under the PR Code and, therefore, the related trust forming a part of the Plan is exempt from taxation. Subsequent to this determination by the PRTD, the Plan was amended. Subsequent amendments have been structured and are intended to maintain the Plan's tax qualified status. Once qualified, the Plan is required to operate in conformity with the PR Code to maintain its qualification. The Company believes the Plan is currently being operated in compliance with the applicable requirements of the PR Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States require the Company to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination. As of December 31, 2010, no uncertain tax positions have been taken or are expected to be taken, and no amounts related to uncertain tax positions have been recorded in the Plan's financial statements. The Plan is subject to audits by the PRTD, however there are currently no audits for any periods in progress. The Company believes the Plan is no longer subject to PRTD examinations with respect to annual reports for years prior to 2006.

The Retirement and Savings Plan for Amgen Manufacturing, Limited

Notes to Financial Statements (continued)

6. Services Provided by the Company

During 2010 and 2009, the Company has paid trustee fees and certain other administrative costs on behalf of the Plan.

7. Reconciliation of Financial Statements to Form 5500

The reconciliation of net assets available for benefits per the financial statements to Form 5500 as of December 31, 2010 and 2009 consisted of the following:

	December 31	
	2010	2009
Net assets available for benefits per the financial statements	\$ 151,990,059	\$ 120,473,154
Adjustment from fair value to contract value for fully benefit-responsive investment contracts	266,989	16,333
Amounts allocated to withdrawing participants	(21,374)	(16,711)
Deemed loans	(96,970)	(14,370)
Net assets per the Form 5500	\$ 152,138,704	\$ 120,458,406

For the year ended December 31, 2010, the following is a reconciliation of the net investment income per the financial statements to the Form 5500:

	Year Ended December 31 2010
Interest and dividend income	\$ 873,815
Net realized/unrealized gains	14,062,319
Total net investment income per the financial statements	14,936,134
Adjustment from fair value to contract value for interest in collective trust funds relating to fully benefit-responsive investment contracts:	
Less prior year adjustment	(16,333)
Add current year adjustment	266,989
Total net investment income per the Form 5500	\$ 15,186,790

The Retirement and Savings Plan for Amgen Manufacturing, Limited

Notes to Financial Statements (continued)

7. Reconciliation of Financial Statements to Form 5500 (continued)

For the year ended December 31, 2010, the following is a reconciliation of distributions to participants per the financial statements to the Form 5500:

	Year Ended December 31 2010
Total distributions per the financial statements	\$ 2,816,617
Less prior year amounts allocated to withdrawing participants	(16,711)
Add current year amounts allocated to withdrawing participants	21,374
Less prior year deemed loan balance	(14,370)
Add current year deemed loan balance	96,970
Total distributions per the Form 5500	<u>\$ 2,903,880</u>
