[On April 29, 2013, Amgen Inc. sent the following summary communication to one or more proxy advisory firms for their consideration in making their vote recommendations. We encourage our stockholders to similarly consider this summary when casting their vote. This summary may be distributed in the future to certain of our stockholders or be used for other purposes.]

Our 2012 Executive Compensation Was Aligned With Our Performance:

- **Our stock price increased from \$64.21 to \$86.20 per share during 2012**, reflecting strong stock price appreciation of approximately 34%, a one-year total shareholder return, or TSR, of 36%, including the impact of our dividends, and a three-year TSR of 56%.
 - i Given our strong relative TSR for the 2010-2012 performance period, where we ranked third of fourteen companies (Amgen and our 2010 peer group), 144.1% of target performance units were earned for the performance period that ended in 2012.
- **Our solid performance in 2012 grew revenues by 11% over 2011 to \$17.3 billion.**
- Our strong balance sheet in 2012 permitted us to **return to our stockholders \$4.7 billion through stock repurchases equal to approximately 8% of our Common Stock outstanding as of December 31, 2012 and \$1.1 billion of cash to our stockholders through dividends**. Since the initiation of our first dividend in July 2011, we have raised the dividend twice by an average of 30%.

Our CEO Compensation for 2012:

- Robert A. Bradway, our former Chief Operating Officer and President, succeeded Kevin W. Sharer as Chief Executive Officer, or CEO, on May 23, 2012 as part of our CEO succession plan. **There is no separation agreement with Mr. Sharer and no employment agreement with Mr. Bradway.**
- Mr. Bradway's total target compensation in the role of CEO **reflects the shift in our compensation philosophy to target the median of our peer group for all elements of total compensation** and to provide long-term incentive, or LTI, equity award grants that are primarily performance-based.
- The philosophical adjustment to target the median of our peer group for all elements of compensation coupled with the internal promotion of our new CEO to the role combined to **reduce the new CEO's initial total target compensation by 28% from the previous total target compensation of our former CEO.**

We Have Maintained Our Extensive Outreach Efforts with Our Stockholders:

In 2012, **we received over 87% stockholder support on our say on pay advisory vote**. While we are pleased with this level of stockholder support for our executive compensation program, we believe it is important to continue to engage with our stockholders and further enhance our understanding of the perspectives of our investors. Since our 2012 annual meeting of stockholders, we have engaged in outreach to stockholders comprising approximately 50% of our outstanding shares and have had extensive discussions with stockholders owning over 37% of our outstanding shares.

We Made Changes to Our Compensation Programs Based on Our Discussions With Stockholders:

Feedback from our stockholders is reviewed by our Compensation and Management Development Committee and we have made a number of compensation changes as a result of the discussions with our stockholders over the past two years, including the following changes effective for our 2012 executive compensation:

- **Reduced the grant value of regular annual long-term incentive, or LTI, equity awards** by lowering the benchmarking target by 25 percentage points to the 50th percentile of our peer group. Now all of our compensation elements are targeted at the 50% percentile.
- **Replaced time-vested LTI equity awards with performance-based equity awards** by increasing the weighting of performance units from 50% to 80% of our regular annual LTI equity award grant values resulting in 80% of units granted being in the form of performance units and the remaining 20% in time-vested restricted stock units, or RSUs. To make this shift, we eliminated time-vested stock options.
- **Linked actual pay delivery from LTI equity awards more closely to our performance** because performance units only vest if specified performance goals are achieved. Our outstanding performance units are earned exclusively based on our TSR relative to the average of the TSRs of our peer group companies.
- **Rebalanced our peer group** to include Allergan, Inc. and Celgene Corporation for 2012 decisions. These companies are among those in our industry with which we compete for executive talent and that better balance our peer group in terms of relative market capitalization and revenue size.
- **Increased the stock ownership guideline for the CEO** from five times base salary to six times base salary to further align the interests of the CEO to our stockholders and mitigate potential compensation-related risk.

Approval of Our Proposed Amended and Restated 2009 Equity Incentive Plan Will Allow Us to Continue to Attract and Retain the Most Talented Employees in Our Industry:

- The proposed amended and restated equity incentive plan amends our existing equity incentive plan (which was approved by our stockholders on May 6, 2009) to, among other things, **increase the number of shares of our Common Stock that may be authorized for grant by approximately 17 million shares**.
- Similar to our existing equity incentive plan, the amended and restated equity incentive plan both continues and enhances a broad range of **compensation and governance best practices**.
- We believe that equity incentive awards are **critical to attracting and retaining the most talented employees in our industry**. Additionally, we have designed our compensation structure to further align the interests of our executive officers with our stockholders by making the largest component of their compensation be in the form of LTI equity awards. Stockholder approval of the proposed amended and restated equity incentive plan will allow us to continue to provide these important and well-aligned incentives.
