Report of Independent Registered Public Accounting Firm

Amgen Inc., as Named Fiduciary, and the Plan Participants
of the Amgen Retirement and Savings Plan

We have audited the accompanying statements of net assets available for benefits of the Amgen Retirement and Savings Plan (the Plan) as of December 31, 2009 and 2008, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2009 and 2008, and the changes in its net assets available for benefits for the years then ended, in conformity with U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedules of assets (held at end of year) as of December 31, 2009 and assets (acquired and disposed of within year) for the year then ended are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, are fairly stated in all material respects in relation to the financial statements taken as a whole.

Amgen Retirement and Savings Plan

Notes to Financial Statements

December 31, 2009

1. Description of the Plan

The following description of the Amgen Retirement and Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was established effective April 1, 1985 and was most recently amended and restated effective January 1, 2010. The Plan is a defined contribution plan covering substantially all domestic employees of Amgen Inc. (the Company or Amgen) and participating subsidiaries. The Plan, as amended, is intended to qualify under sections 401(a) and 401(k) of the Internal Revenue Code of 1986 (the Code) (see Note 5, *Income Tax Status*) and section 407(d)(3)(A) of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Subject to certain limitations (as defined in the Plan), participants may elect to contribute up to 30% of their eligible compensation in pre-tax elective contributions, Roth elective contributions, after-tax elective contributions or a combination of these types of contributions. A participant's combined pre-tax elective contributions and Roth elective contributions (exclusive of catch-up contributions discussed below) are subject to Internal Revenue Service (IRS) and Plan limits and could not exceed a maximum of \$16,500 in 2009 and \$15,500 in 2008. Participant after-tax elective contributions are subject to IRS and Plan limitations and could not exceed a maximum of \$8,000 in 2009 and \$7,500 in 2008. Unless an employee has voluntarily enrolled in the Plan or has declined to participate in the Plan within the first 30 days of employment, all newly eligible participants are automatically enrolled in the Plan and contributions equal to 5% of their eligible compensation are withheld and contributed to the Plan as pre-tax elective contributions; such contributions are automatically increased by 1% per year until their contributions reach 10% of their eligible compensation. Participants may elect to adjust, cease or resume their contributions at any time.

Participants who are at least age 50 by the close of the Plan year may also make certain additional contributions, referred to as catch-up contributions, that are subject to IRS and Plan limitations and could not exceed \$5,500 in 2009 and \$5,000 in 2008. Catch-up contributions can be made as pre-tax elective contributions, Roth elective contributions or a combination of these types of contributions. Participants may also contribute pre-tax and after-tax amounts representing certain distributions from other defined benefit or defined contribution plans qualified in the United States or certain individual retirement accounts (IRAs), referred to as rollover contributions (as defined in the Plan).

Each pay period, the Company makes a non-elective contribution for all eligible participants, whether or not they have elected to make contributions to the Plan, equal to 5% of each participant's eligible compensation (Core Contribution). In addition, the Company makes a contribution of 100% of up to 5% of eligible compensation contributed by the participant as pre-tax elective contributions or Roth elective contributions, including such contributions designated as catch-up contributions (Matching Contribution).

Amgen Retirement and Savings Plan

Notes to Financial Statements (continued)

Also, the Company can, in its discretion, make a special non-elective contribution on behalf of each participant who is in his or her initial year of employment with the Company and who could not make the maximum participant contribution permitted under the Plan because in the same Plan year he or she previously made pre-tax salary deferrals under a prior unrelated employer's qualified plan.

Participants select the investments in which their contributions, including Core Contributions and Matching Contributions (collectively, Company Contributions), are to be invested, electing among various alternatives, including Amgen Inc. common stock (Amgen stock). Effective October 1, 2008, participants may direct a maximum of 20% of contributions to be invested in Amgen stock; prior to October 1, 2008, participants could direct a maximum of 50% of contributions to be invested in Amgen stock. Participants may transfer amounts among the investment options at any time, subject to certain limitations. Notwithstanding the foregoing, if 20% or more (50% or more prior to October 1, 2008) of the value of a participant's Plan account is invested in Amgen stock, no transfers from other investment options can be made to invest in Amgen stock.

The accounts of participants who had never made an investment election are allocated to investments under a qualified default investment alternative which is intended to be compliant with ERISA regulations. At any time participants may elect to alter the investments in their accounts made under a qualified default investment alternative.

Vesting

Participants are immediately vested with respect to their contributions, Company Contributions, and earnings and losses (hereafter referred to as "earnings") thereon.

Participant Accounts

Each participant's account is credited with the participant's contributions and an allocation of (a) Company Contributions and (b) earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Plan Investments

Effective October 1, 2008, participants can invest in any of 14 different asset classes as well as Amgen stock or may actively manage their account under a self-directed brokerage arrangement under which a wider array of investment options are available. Each asset class has investments in mutual funds, collective trust funds and/or portfolios which are separately managed exclusively for the benefit of Plan participants and their beneficiaries (separately managed portfolios). Prior to October 1, 2008, participants could invest in mutual funds, Amgen stock and separately managed portfolios. The separately managed portfolios have underlying investments primarily in publicly traded common and preferred stocks of domestic and foreign entities, fixed income securities and/or collective trust funds.

Amgen Retirement and Savings Plan

Notes to Financial Statements (continued)

Payments of Benefits

Upon termination of employment, including termination due to disability (as defined in the Plan) or retirement, but excluding termination due to death, participants may elect to receive an amount equal to the value of their account balance in (a) a single lump sum payment in cash, (b) a single sum distribution in full shares of Amgen stock (with any fractional shares paid in cash), (c) a single sum distribution paid in a combination of cash and full shares of Amgen stock, (d) cash installments (as defined in the Plan), or (e) a rollover distribution to an eligible retirement plan (as defined in the Plan). If a participant dies before receiving the value of his or her vested account balance, the participant's beneficiary may elect to receive the distribution from among the alternatives described above, subject to certain Plan limitations.

Subsequent to termination of employment, participants may also elect to maintain their vested account balance in the Plan, provided that their account balance is greater than \$1,000.

Certain restrictions apply to withdrawals from the Plan while a participant continues to be employed by the Company.

Participant Loans

Subject to certain restrictions, a participant can have outstanding up to two loans at any one time from his or her Plan account up to a combined maximum amount (as defined in the Plan) equal to the lesser of (a) 50% of their vested account balance or (b) \$50,000 less certain adjustments, as applicable (as defined in the Plan). Loans made prior to July 1, 2003 bear interest at fixed rates based on the average borrowing rates of certain major banks. Loans made on or after July 1, 2003 bear interest at fixed rates based on the prime rate plus one percentage point as published in The Wall Street Journal determined as of the last day of the calendar quarter preceding origination or such other rate as may be required by law. Loans are generally payable in installments over periods ranging from one to five years, unless the loan is used to acquire a principal residence for which the term of the loan may be up to 20 years. Principal and interest payments are allocated to the participant's account.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. Upon termination, participants would receive distributions of their account balances.

Trustee

Effective October 1, 2008, Bank of America, N.A. (formerly Merrill Lynch Bank & Trust, Co., FSB) acts as the Plan's trustee. Prior to October 1, 2008, Fidelity Management Trust Company acted as the Plan's trustee.

Amgen Retirement and Savings Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Fair Value Measurement

The investments of the Plan are reported at fair value. Fair value is generally defined as the price that would be received to sell an asset or paid to transfer a liability (the exit price) in an orderly transaction between market participants at the measurement date (see Note 3, *Fair Value Measurements*). In 2009, the Plan adopted a new accounting standard that prospectively requires additional disaggregation when presenting the fair values of categories of Plan assets. The adoption of this new accounting standard did not have any impact on the Plan's net assets. Also, in 2009, the Plan adopted a new accounting standard that provides additional guidance in estimating fair value when the market volume and level of activity for an investment has significantly decreased and in identifying circumstances that indicate a transaction may not be orderly. The adoption of this new accounting standard did not have a material impact on the Plan's financial statements.

Investment Income and Losses

Dividend income is recognized on the ex-dividend date and interest income is recorded on an accrual basis. Unrealized gains and losses on investments are measured by the change in the difference between the fair value and cost of the securities held at the beginning (or date purchased if acquired during the Plan year) and the end of the year. Realized gains and losses from security transactions are recorded based on the weighted-average cost of securities sold.

Cash and Cash Equivalents

Cash and cash equivalents include cash and short-term interest-bearing investments with initial maturities of three months or less. Such amounts are recorded at carrying value, plus accrued interest.

Collective Trust Funds

Collective trust funds represent interests in pooled investment vehicles designed typically for collective investment of employee benefit trusts. The fair values of these investments are determined by reference to the net asset value per unit provided by the fund managers. The unit values are based on the fair value of the trusts' underlying assets, which are principally equity and fixed income securities and short-term investments.

The investment strategies of the Plan's collective trust funds vary based on the investment objectives of the asset class of which they are a part. Such investment strategies include investments in fixed income securities and investments in equity securities for growth and value objectives as well as to replicate market indexes and to invest in emerging markets. There are no material redemption restrictions on any of these investments.

Amgen Retirement and Savings Plan

Notes to Financial Statements (continued)

Fully Benefit-Responsive Investment Contracts

The Plan holds units of collective trust funds that have investments in fully benefit-responsive investment contracts. In addition, the Plan directly invests in such contracts in the form of security-backed contracts, discussed below. Such contracts held directly or indirectly by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate qualified transactions related to these investments. The Statements of Net Assets Available for Benefits present these contracts at fair value with an adjustment to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

As of December 31, 2009 and 2008, the Plan had two security-backed contracts which are fully benefit-responsive investment contracts, sometimes referred to as wrapper contracts. These contracts were issued by financial services companies and are backed by the Plan's ownership interest in a collective trust fund that invests in fixed income securities. The credit ratings of one contract issuer are "AA-" with a negative outlook by Standard & Poor's (S&P), "A1" with a negative outlook by Moody's Investor Services, Inc. (Moody's), and "a+" with a negative outlook by A.M. Best Company. The credit ratings of the other issuer are "AA-" with a negative outlook by S&P, "Aa1" with a negative outlook by Moody's and "AA-" with a stable outlook by Fitch, Inc. The issuers of the Plan's security-backed contracts credit the Plan with stated rates of interest, and the issuers guarantee that all qualified participant withdrawals related to the contracts will be at contract value. The crediting rates provide for realized and unrealized gains and losses on the underlying assets to be amortized over the expected duration of the underlying investments through adjustments to the future interest crediting rates rather than being reflected immediately in the net assets of the Plan. The interest crediting rates of the security-backed contracts are primarily based on the current yield to maturity of the underlying investments plus or minus amortization of the difference between the contract value and fair value of the underlying investments over the duration of such investments. Accordingly, future crediting rates are impacted by changes in the yield to maturity of underlying investments, the duration of the assets underlying the contract and the difference between the contract value and fair value of the underlying investments. The crediting rates are reset quarterly and are reduced by fees paid to the contract issuers. In no event are the crediting rates less than 0%.

To the extent that the underlying investments of security-backed contracts have unrealized and/or realized losses, a positive adjustment is made to the adjustment from fair value to contract value in the Statements of Net Assets Available for Benefits. As a result, the future crediting rate may be lower over time than the then-current market rates. Conversely, if the underlying investments generate unrealized and/or realized gains, a negative adjustment is made to the adjustment from fair value to contract value, and the future crediting rate may be higher over time than the then-current market rates.

The security-backed contracts provide for withdrawals at other than contract value associated with certain events which are not in the ordinary course of Plan operations. These withdrawals are made at contract value modified by a market value adjustment as defined in the contract. Circumstances which may trigger a market value adjustment are generally defined as any event which, in the reasonable determination of the issuer, has or will have a material adverse effect on the issuer's interest under the contract. Such events may include, but are not limited to: (i) material amendments to the Plan's structure

Amgen Retirement and Savings Plan

Notes to Financial Statements (continued)

or administration; (ii) changes in or the creation of competing investment options; (iii) complete or partial termination of the Plan; (iv) removal of a specifically identifiable group of employees from coverage under the Plan; (v) a change in law, regulation, ruling, administrative position, or accounting standard applicable to the Plan; or (vi) communication to Plan participants designed to influence a participant not to invest in the asset class that contains these contracts. The Company does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

These security-backed contracts are evergreen contracts with no maturity dates but do contain termination provisions. The issuer is obligated to pay the excess contract value when the fair value of the underlying investments equals zero. In addition, if the Plan defaults in its obligations under the security-backed contract and such default is not corrected within the time permitted by the contract, then the contract may be terminated by the issuer and the Plan will receive the fair value of the underlying investments as of the date of termination.

The yields earned by the Plan as of December 31, 2009 and 2008 were 2.9% and 3.7%, respectively, which represents the annualized earnings of all security-backed contracts divided by the fair value of all security-backed contracts in the Plan as of December 31, 2009 and 2008, respectively. The yield earned by the Plan with an adjustment to reflect the actual interest rate credited to participants as of December 31, 2009 and 2008 was 3.7% and 4.2%, respectively, which represents the annualized earnings credited to participants divided by the fair value of all security-backed contracts as of December 31, 2009 and 2008, respectively.

Other Investments

Common stock (including Amgen stock), preferred stock, mutual funds and U.S. treasury securities are valued using quoted market prices in active markets with no valuation adjustment. Common and preferred stocks traded in markets that are not considered active are valued using broker or dealer quotations. Debt securities other than U.S. treasury securities are valued using methodologies based on market observable inputs, including quoted prices of transactions of similar securities in active markets, quoted prices of recent transactions of identical or similar securities in markets that are not active, benchmark yields and issuer credit spreads. Participant loans are valued at carrying amount, which approximates fair value. Derivatives are primarily composed of futures contracts, credit default swaps, interest rate swaps and swaptions. Futures contracts are valued based on unadjusted settlement prices in active markets for identical assets or liabilities; credit default swaps, interest rate swaps and swaptions are valued using valuation models for which all significant inputs are observable either directly or indirectly to estimate fair value.

Due from/to Brokers

Purchases and sales of investments are recorded on a trade-date basis. Due from brokers and due to brokers arise from unsettled sale and purchase transactions as of December 31, 2009 and 2008.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Amgen Retirement and Savings Plan
Notes to Financial Statements (continued)

Subsequent Events

Subsequent events were evaluated through the date of issuance of the financial statements in this Form 11-K.

Recent Accounting Pronouncements

In 2010, the Plan will adopt a new accounting standard which requires additional disclosure about the amounts of and reasons for significant transfers in and out of Level 1 and Level 2 fair value measurements (see Note 3, *Fair Value Measurements*). This standard also clarifies existing disclosure requirements related to the level of disaggregation of fair value measurements for each class of assets and liabilities and disclosures about inputs and valuation techniques used to measure fair value for Level 2 and Level 3 measurements. In addition, effective for 2011, this standard will require additional disclosure and the presentation of disaggregated information about activity in Level 3 fair value measurements on a gross basis, rather than as one net amount. As this new accounting standard only requires enhanced disclosure, the adoption of this standard will not impact the Plan's net assets available for benefits or changes to net assets available for benefits.

3. Fair Value Measurements

The Plan uses various valuation approaches in determining the fair value of investment assets and liabilities within a hierarchy that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that observable inputs be used when available. Observable inputs are inputs that market participants would use in pricing the asset or liability based on market data obtained from independent sources. Unobservable inputs are inputs that reflect assumptions about the inputs that market participants would use in pricing the asset or liability and are developed based on the best information available in the circumstances. The fair value hierarchy is broken down into three levels based on the source of inputs as follows:

Level 1 – Valuations based on unadjusted quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access;

Level 2 – Valuations for which all significant inputs are observable, either directly or indirectly, other than level 1 inputs;

Level 3 – Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

The availability of observable inputs can vary among the various types of investment assets and liabilities. To the extent that the valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for financial statement disclosure purposes, the level in the fair value hierarchy within which the fair value measurement is categorized is based on the lowest level input that is significant to the overall fair value measurement.

Amgen Retirement and Savings Plan

Notes to Financial Statements (continued)

The following fair value hierarchy table presents information about each major category of the Plan's investment assets and liabilities measured at fair value:

	Fair value measurements at December 31, 2009 using			Total

Notes to Financial Statements (continued)

4. Investments

The fair values of individual investments that represent 5% or more of the Plan's net assets as of December 31, 2009 and 2008 are as follows:

	December 31,	
	2009	2008
Blackrock Equity Index Fund F – Collective trust fund (formerly Barclay's Global Investment Equity Index Fund – Collective trust fund)	\$ 317,966,339	\$ 220,942,854
Amgen stock	146,061,982	154,332,717
Dodge & Cox International Fund	132,761,979	*
Wells Fargo Fixed Income Fund D – Collective trust fund	115,291,348	*
Wells Fargo Stable Return Fund G – Collective trust fund	101,139,377	83,795,423

* Investment balance was less than 5% of the Plan's net assets.

During 2009 and 2008, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated/(depreciated) in fair value as follows:

	Years Ended December 31,	
	2009	2008
Amgen stock	\$ (2,886,135)	\$ 31,496,921
Common and preferred stocks	160,930,191	(196,264,784)
Fixed income securities	5,448,633	(6,598,081)
Mutual funds	58,353,945	(409,693,469)
Collective trust funds	152,712,132	(67,419,463)
Other	1,772,700	(1,508,826)
	<u>\$376,331,466</u>	<u>\$(649,987,702)</u>

5. Income Tax Status

The Plan received a determination letter from the IRS dated March 27, 2008, stating that the Plan is qualified, in form, under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended. Subsequent amendments have been structured and are intended to maintain the Plan's tax qualified status. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Company believes the Plan is currently being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

6. Services Provided by the Company

During 2009 and 2008, the Company has paid trustee fees and certain other administrative costs on behalf of the Plan.

Amgen Retirement and Savings Plan

Notes to Financial Statements (continued)

7. Assets Transferred from Amgen Mountain View Inc. 401(k) Retirement Plan

In connection with its acquisition of Avidia, Inc. in September 2006, the Company assumed sponsorship of the Avidia 401(k) Plan, which was subsequently renamed the Amgen Mountain View Inc. 401(k) Retirement Plan (the Avidia Plan). Each participant in the Avidia Plan on July 31, 2008 became a participant in the Plan, and on August 1, 2008, the Company merged the Avidia Plan into the Plan and assets totaling \$481,592 held by the Avidia Plan were transferred to the Plan.

8. Reconciliation of Financial Statements to Form 5500

The reconciliation of net assets available for benefits per the financial statements to Form 5500 as of December 31, 2009 and 2008 consists of the following:

	December 31,	
	2009	2008
Net assets available for benefits per the financial statements	\$2,016,097,366	\$1,438,542,555
Adjustment from fair value to contract value for fully benefit-responsive investment contracts	3,744,082	(3,791,063)
Amounts allocated to withdrawing participants	(359,818)	(358,293)
Deemed loans	(199,795)	(194,652)
Net assets per the Form 5500	<u>\$2,019,281,835</u>	<u>\$1,434,198,547</u>

For the year ended December 31, 2009, the following is a reconciliation of the net investment income per the financial statements to the Form 5500:

	Year Ended December 31, 2009
Interest and dividend income	\$ 21,729,237
Net realized/unrealized gains	376,331,466
Total net investment income per the financial statements	398,060,703
Adjustment from fair value to contract value for fully benefit-responsive investment contracts:	
Less prior year adjustment	3,791,063
Add current year adjustment	3,744,082
Total net investment income per the Form 5500	<u>\$ 405,595,848</u>

Amgen Retirement and Savings Plan

Notes to Financial Statements (continued)

For the year ended December 31, 2009, the following is a reconciliation of distributions to participants per the financial statements to the Form 5500:

	<u>Year Ended December 31, 2009</u>
Total distributions per the financial statements	\$101,482,862
Less prior year amounts allocated to withdrawing participants	(358,293)
Add current year amounts allocated to withdrawing participants	359,818
Less prior year deemed loan balance	(194,652)
Add current year deemed loan balance	199,795
Total distributions per the Form 5500	<u>\$101,489,530</u>
